SUMMER SHADES

HOW TO KEEP COOL WITH THE
SEASON'S MUST-HAVE HUES

STAY IN THE PINK WITH ALL YOU NEED FOR A HIS-AND-HERS SUMMER PINK-ME-UP. 1. Pair dramatic eyes with **Burberry's** Lip Glow in Blush No. 4 for a less-is-more look. Formulated with nourishing oils and ceramides, lips will be blissfully hydrated and instantly appear plumper. 2. **Boucheron's** Place Vendôme instantly transports you to Paris. The scent is velvety and voluptuous, refined and elegant—just like the city itself. 3. Inspired by timeless Japanese rituals, **Diptyque's** Radiance Boosting Powder is formulated with white clay, rose petals, jasmine, sweet orange blossom, vitamins and minerals, and when mixed with water works miracles on dull, fatigued skin. 4. The third fragrance in **Prada's** Candy collection, Candy Florale is a powdery, romantic scent that is both uplifting and sensual. 5. Apply **Elemental Herbology's** Biodynamic Facial Soufflé in-flight or as an after-sun solution for a hydrating dose of anti-aging protection. 6. **Longchamp's** vibrant Cuir clutch is the ideal carry-all for cosmetics. 7. Emblem by **Montblanc** is for the man who understands luxury and appreciates the finer things in life. The fragrance is at once timeless and modern, effervescent and earthy. 8. Summer begs for fresh, luminous skin, but that doesn't have to mean going bare-faced. Add a hint of subtle colour with **Tom Ford's** luscious Lip Colour Sheer lipstick in Summer Fling. 9. A favourite with spa goers, **Bamford's** Geranium hand and body lotion is a wonderful combination of organic botanical butters, oils and honey. Hints of spicy vanilla, lavender and eucalyptus make it a morning and before-bed staple. 10. **By Terry's** Cellularose Blush Glacé (shown here in Rose Melba) contains the latest in plant cell technology, healing and protecting the skin with each application. The gel-like formula glides on for flawless blending and the delicate rose scent makes it utterly irresistible. 11. One sniff and you will fall in love with **Aurelia Probiotic Skincare Firm & Revitalise Dry Body Oil**. Luxuriously silky and packed with sumptuous oils to help firm and hydrate, with this body oil summer skin has finally found its mate.
